

Skills:

- Power Pages, Power App, Copilot Studio, Power BI, Power Automate, Power BI Fabric, AI Builder and Chatbots, Advanced Excel, DAX Queries, M Language, Fx, RLS, Python, SharePoint, SharePoint REST APIs, SharePoint Lists, PostgreSQL, SQL Server, SSIS, Dynamics 365, Data Verse, Gateways, Java script, React, Data Loss Prevention (DLP), GenAI Integration for workflows, Claude code
- Git/GitHub, Jira, Figma, GCP, Azure SQL, MS Office, AWS Services, ServiceNow, Cloud flows, REST API Integration, Gateways
- Data Analysis, Data Management, Business Analysis, Data Modeling, Data Warehousing, Automation, Business Intelligence, Research

Experience:

Dec 2025 - PRESENT

Tech Star Group, Noida, India – *Software Engineer*

- **Power Platform & Analytics Specialist:** Expertise in **Power Apps, Copilot Studio, Power Automate, Dataverse, AI Builder, Power BI and Power Pages, SharePoint Online** to build end-to-end low-code solutions.
- **Automation & Efficiency Impact:** Designed scalable workflow automations reducing **manual effort by up to 90%** across business processes.
- **AI Innovation Solutioning:** R&D initiatives exploring emerging technologies to design and **prototype advanced, AI-driven product** solutions that enhance user experience and operational intelligence.

Aug 2022 – Dec 2025

HCL Technologies, Sector-126, Noida, India – *Senior Data Analyst*

- **SharePoint** Online customization initiatives to support document-heavy business processes and integrate **chatbots** for automation.
- 3+ years in **Microsoft power platform** development, data visualization and automation, optimizing KPIs and SLAs with actionable insights.
- Developed 50+ **Power BI** dashboards with diverse datasets, ensuring data privacy with RLS.
- Streamlined billing approvals with **Power Automate** and **Power Apps**, cutting approval time by 60%.
- Engineered **machine learning models** for text analysis, improving issue tracking accuracy by 85%.

Projects:

Pulse Partner Performance Hub (Power Pages, React JS, Automate)

- Built and enhanced a global partner performance management platform using Power Pages, React JS, and JavaScript for 55+ markets.
- Developed market-specific forms, business rules, and automated approval workflows to support diverse regional processes and approvers.
- Streamlined partner performance tracking and approvals through scalable automation, improving operational efficiency and user experience across global teams.

DocOps AI (Copilot Studio, Automate and AI Agents)

- Built an AI-driven document processing system using Copilot, AI Document Intelligence, and Power Automate to auto-scan, classify, and analyze documents.
- Enabled Copilot Agents to identify invoices, agreements, and other document types with high accuracy.
- Achieved **90%+ reduction** in manual document reading and analysis effort, speeding up workflows across teams.

Change Control Request Application (Power APP, Power BI, SharePoint and Power Automate)

- Engineered and deployed a Power App to streamline approval workflows for building details modification, system upgrades, and billing data updates boosting processing speed by **over 80%** for transactional count-related updates.
- Spearheaded the integration of Azure SQL with Power Automate, achieving real-time data synchronization and updates, this refined process reduced manual entry errors by 40% and saved the team 15 hours weekly.

Nestle & FIXIT Development (Power BI, Copilot Agent and Automation)

- Built a real-time Power BI 10+ dashboards for Incident Status, SLA, health, finance industry, and KPIs, improving decision-making.
- Achieved a 35% reduction in storage and a 15% improvement in query speed through DAX Studio optimization.
- Optimized data transformation and reporting processes through Power Automate, reduced the manual effort almost zero.
- Custom Power BI connector with automated, secure refresh via an on-premises gateway, improving reporting efficiency by 70%.

Education:

Jun 2018 – Jun 2022

NiIT, Kolkata, India – *Bachelor of Technology - Information Technology - 8.4 (DGPA)*

Certifications and Awards:

- Microsoft Certified: Power BI Data Analyst Associate PL-300.
- Earned formal commendations and positive feedback from clients for exceptional work.
