

Skills:

- Copilot Studio, Power App (Canvas and Model Driven), Power BI, Power Automate, Azure AI Foundry, AI Builders, AI Agents, Prompt Engineering, LLMs, RAG, Responsible AI, Dataverse, Excel, Python, SharePoint REST APIs, SharePoint Lists, SQL Server, Dynamics 365, Gateways, HTML, CSS, JavaScript, React Js, Data Loss Prevention (DLP), Security and Governance, GenAI, AI Evaluation
- Git/GitHub, Jira, Figma, GCP, Azure SQL, MS Office, Big Query, ServiceNow, Cloud flows, REST API Integration, Salesforce, ML
- Data Analysis, Data Management, Business Analysis, Data Modeling, Data Warehousing, Automation, Business Intelligence, Research

Experience:

Dec 2025 - PRESENT

Tech Star Group, Noida, India – *Software Engineer*

- **Power Platform & Analytics Specialist:** Expertise in **Power Apps, Copilot Studio, Power Automate, Dataverse, AI Builder, and Power BI, SharePoint Online** to build end-to-end low-code solutions.
- **Automation & Efficiency Impact:** Designed scalable workflow automations reducing **manual effort by up to 90%** across business processes.
- **AI Innovation Solutioning:** R&D initiatives exploring emerging technologies to design and **prototype advanced, AI-driven product** solutions that enhance user experience and operational intelligence.

Aug 2022 – Dec 2025

HCL Technologies, Sector-126, Noida, India – *Power Platform Developer*

- 3+ years in **power platform development**, data visualization and automation, optimizing KPIs and SLAs with actionable insights.
- Developed 50+ **Power BI** dashboards with diverse datasets, ensuring data privacy with RLS.
- Streamlined billing approvals with **Power Automate, Power Apps and Agents**, cutting approval time by 60%.
- Engineered machine learning models for text analysis, improving issue tracking accuracy by 85%.
- Built a Copilot Agent to improve HR Portal self-service and document access.

Projects:

CCR Application (Power APP, Power BI, Power Automate and Data verse)

- Engineered and deployed a Power App and customised Components by JavaScript to streamline approval workflows for building details modification, system upgrades, and billing data updates boosting processing speed by **over 80%** for transactional count-related updates.
- Spearheaded the integration of Azure SQL with Power Automate and VBA, achieving real-time data synchronization and updates, this refined process reduced manual entry errors by 40% and saved the team 15 hours weekly.

DocOps AI (Copilot Studio, Automate, Dataverse and AI Builders)

- Built an AI-driven document processing system using Copilot, AI Document Intelligence, and Power Automate to auto-scan, classify, and analyze documents.
- Enabled Copilot Agents to identify invoices, agreements, and other document types with high accuracy.
- Achieved **90%+ reduction** in manual document reading and analysis effort, speeding up workflows across teams.

Nestle & FIXIT Development (Copilot Studio, Power BI, Automation and SharePoint)

- Built a real-time Power BI 10+ dashboards for Incident Status, SLA, health, finance industry, and KPIs, improving decision-making.
- Achieved a 35% reduction in storage and a 15% improvement in query speed through DAX Studio optimization.
- Optimized data transformation and reporting processes through Power Automate and Agents, reduced the manual effort almost zero.
- Custom Power BI connector with automated, secure refresh via an on-premises gateway, improving reporting efficiency by 70%.

Convo Exit Agent (Copilot Studio, Dataverse, Power BI, AI Agents)

- Built a Copilot Studio based exit interview solution automating employee and manager feedback processes.
- Leveraged Dataverse and AI Builder for centralized data storage and AI-driven sentiment analysis.
- Enabled real-time HR insights through interactive Power BI dashboards and workforce trend reporting

Education:

Jun 2018 – Jun 2022

NiIT, Kolkata, India – *Bachelor of Technology - Information Technology - 8.4 (DGPA)*

Certifications and Awards:

- Microsoft Certified: Power BI Data Analyst Associate PL-300.
- Earned formal commendations and positive feedback from clients for exceptional work.
